A couple of things I’ve learned during my long stay here at BAE: register as early as you possibly can. That helps you get into the section you want (depending on how many hours you have), with the professor you want. Along those lines, I must point out that Dr. Goebel’s classes are only for 30 students. Her classes are offered to WKU students via distance learning, which limits the rooms she can teach in, which in turn limits the students she can accommodate. Dr. Crofcheck and I have nothing to do with this, and unfortunately, we have no special powers to get you into these sections. So, again, REGISTER AS EARLY AS YOU CAN! We will be in touch with the ME Department because a lot of you will need overrides into their courses. We will get this done in a timely manner to help you get into the sections you want.

For those of you who still need to take the drawing course, please note that we recommend any machinery students to take ME 205 (Pro/E), and NOT CE 106 (AutoCad). Also, our senior design courses, BAE 402/403, have been approved by UK to fulfill the Arts & Creativity UK core requirement. So, you don’t have to worry about taking one of those as long as you stick with BAE.

As always, we are here to help you if you need us.
In honor of PI day, March 14th...

\[
\sqrt{1} + 2^{3} \sum \pi
\]

and it was delicious!

Alpha Epsilon is an honor society for outstanding agricultural, biological and food engineers. The objectives of the honor society are to promote the high ideals of the engineering profession, to give recognition to those agricultural, biological and food engineers who manifest worthy qualities of character, scholarship and professional attainment, and to encourage and support such improvements in the agricultural, biological and food engineering profession that make it an instrument of greater service to mankind.

In order to be invited to join Alpha Epsilon, you need to be in the top 25% of the juniors or the top 33% of the seniors in the College of Engineering. For the purposes of Alpha Epsilon you must be a junior or senior in the BAE program (it’s not based strictly on your credits). Graduate students that have earned above a 3.25 after 12 credits are also eligible. For more information, Google "ASABE Alpha Epsilon" or talk to Dr. Crofcheck.

The activities of the local branch of Alpha Epsilon vary from year to year and depend on the students involved in the group. In past years, Alpha Epsilon has hosted a BAE Student Branch meeting, bringing in alumni to talk about “What I know now, that I wish I knew then.” In other years, Alpha Epsilon organized review sessions for the FE and produced a newsletter for the department.

There are leadership options available in Alpha Epsilon, including president, vice-president, treasure/secretary. BAE-UK has been fortunate enough to have several students also elected to the national executive board.
