

## What Farmers Say

*"I can get what other workshops offer via the Internet 24/7, but Purdue's Top Farmer Workshop challenges me in the way I manage my farm!"*

*"I came to Top Farmer, evaluated my farming operation with B21, and then decided I needed a bigger combine. This year I'm so glad I did!"*

*"Purdue's TFC Workshop is the only place I can think of where I can closely interact with the Midwest's most innovative and progressive farmers. What a great way to learn!"*

*"After coming to Top Farmer, I learned how to become better, then decided to get bigger, and then became better."*

*"The TFC Workshop is a wonderful blend of university researchers, agri-businesses, dealers, and farmer presenters. Topics are presented from the science to the use on our neighbor's farms."*

*"Thanks, Purdue!"*

## Challenge Yourself By:

### **Purdue's B21 Computer Model**

Optimize your farming operation with help from numerous Teaching Assistants. Test your crop mix, machinery size, tillage system, and farm size.

### **Yield Monitor Data Analysis**

Use state of the art software tools to help you turn your yield monitor data into improved crop management decisions. This next workshop will focus on planned comparisons.

### **Interact with Other Farmers**

Where else can you network with nearly 200 farmers from over seven states?

### **Facilitated Small Group Discussions**

This year's facilitated small group discussions focus on strategic planning for the future farm programs.

## Opportunity To:

- ◆ Learn about profitable and practical crop production innovations, and test the profitability on your farm!
- ◆ Hear from your farmer peers about how they've field tested ideas and became better managers and producers, then interact with them!
- ◆ Network with farmers who ask "how much can I do" instead of the ones who ask "how much do I have to do?"

## Presentations On:

- ◆ Management and production topics including farmland leasing, fertility, marketing, policy, precision farming, and many others.
- ◆ Join in as moderators challenge our speakers with tough thought-provoking questions. . . the ones you want to know the answers to.

Top Farmer Crop Workshop is a clearinghouse for ideas on optimizing operations and using new technology. Top Farmer is known for being first in new crop technology.
